

GUIDELINES FOR RE-REGISTRATION WITH THE SAVC AFTER A PERIOD OF THREE YEARS LAPSED FROM THE DATE OF REMOVAL FROM THE REGISTER

The Act determines that a registree whose name was removed from the register for a period longer than three-years must pass an examination to be re-registered with the SAVC

Council will however consider a motivation stating the reasons why you should not be required to sit and pass an examination.

The assessment of applications submitted for re-registration after three years lapsed would include the attendance and **frequency of Continuing Professional Development [CPD] accumulation during the period of not being registered** with Council.

The approval for registration and/or re-registration with Council would be assessed on individual basis and merit. If recommended for examination, the format of the examination would be taken on individual merit which could be theoretical, practical or combination of both and part of the consideration would include **the frequency during which CPD was obtained in the period of not being registered** with Council.

- i) Applications for registration and/or re-registration with Council would include police and medical clearance;
- ii) The completion of the jurisprudence examination may be required; and
- iii) The document would be adopted by the committee once all the changes have been effected.
